

## **LHS Safe Return to Band**

- If you are not feeling well, for ANY reason, PLEASE stay home.
- CLOTH FACE MASK WILL BE MANDATORY FOR ALL PARTICIPANTS. Once students and staff are properly socially distance in their rehearsal setting they will be instructed to take them off.
- Students will not meet inside the building, but instead will report to the check-in table outside the music doors and then be directed to your outside rehearsal locations. (For NEW parents - Enter the HS at the traffic light, drive down until you see DOOR 18 on the right). Battery percussion and Guard will be on the backside of the building, while woodwinds and brass will be on the front side of the building.
- A check-in will be required of ALL students where students will need to answer a few health questions and will not be allowed to rehearse if they answer positively.
- If students need to go inside to get equipment they'll be sent in by small groups of 10 at a time.
- Rehearsals will be primarily outside, except for the Front Ensemble. Large indoor areas will only be used in the event of rain.
- Each group will be spaced out at least 6ft+ apart at all times
- Students who exhibit signs and symptoms of illness will be asked to leave and be given guidelines on how to return.
- Since we'll be outside and it may be hot students should bring their own water bottle and not share bottles.
